

## **FAQ's - LOCAL IPACE REBATES**

### **How much rebate money is available to a local?**

Locals may request three different levels:

1. Level I Standard Rebate - is \$4.00 per IPACE contributing member is available each year. This rebate must be requested during the current IPACE year, which runs from July 1 to June 30. Rebates cannot be provided for prior years, e.g. on June 30, 2005 you can only request a rebate for the 2004-2005 year, and on July 1, 2005 you can only request a rebate for the 2005-2006 year.
2. Level II Special Rebate – is an additional \$6.00 per contributing member (\$10.00 total) if you have special circumstances that will require more funding. The reason for such a request should be fully documented in your written rebate request.
3. Finally, under unusual circumstances a Level III Priority Project rebate of larger than \$10.00 may be available. This rebate requires a budget and the approval of the IPACE executive committee. Contact Government Relations for further details.

### **How do locals request their rebate money?**

Rebate requests must be made in writing or by e-mail. Written requests can be sent to the Government Relations Department at IEA Headquarters in Springfield. E-mail requests can be sent to [Jim.Reed@ieanea.org](mailto:Jim.Reed@ieanea.org), or to your lobbyist

### **What else do I need to know about local rebates?**

It is important that all political action funds be fully accounted for and spent for the proper purposes. They should be kept in a separate, non interest-bearing checking account and complete records should be kept as to how they are spent.
